April 26, 2021, 11-12.30

The event will take place on-line through the Zoom platform. To get the access code please contact Dr. Matteo Ferrari (matteo.ferrari@unitn.it)

The EU-FLAG (Food Law And Globalization) Jean Monnet module aims at developing a better understanding of European food law and how it interacts with the dynamics characterizing international markets, exploring the dialogic relationship existing between the rules of the agri-food sector and globalization.

The seminar will present the Legal Guide on Contract Farming jointly drafted by UNIDROIT, FAO and IFAD and published in 2015. Contract farming represents a set of practices and arrangements employed to coordinate agricultural production and trade and increasingly used worldwide. The goal of the Guide is to provide both an analysis of the legal issues characterizing contract farming and guidance on the common contract terms that are employed in this context.
